Hello, I am Omer Cagri. I have 2+ years of coding experience with 1+ years of JavaScript/TypeScript. I use NextJS, MongoDB, Docker, and Zod for the Full-stack, and I also use React, TailwindCss, and Vite for the front-end development.

I am good at finding talented and adaptive people for the team.

I like learning from seniors and teaching what I know to everyone.

Professional Experience

MonSpark [↗](#)

Full Stack Web Engineer

01/2022 – 01/2023 | Gebze, Turkiye

I developed some modules that you can see on their website. I use Typescript, Nodejs, and Zod on the backend side. I manage an Internship program, then I lead a small (3-person) team for a new project. I am good at finding new talented and adaptive people to the team.

MonSpark

Frontend Web Developer Intern

10/2021 – 01/2022 | Gebze, Turkiye

AGIM Engineering [↗](#)

IoT Hardware Intern

06/2021 – 09/2021 | Adana, Turkiye

I did my Computer Hardware internship for the university here. I worked on IoT Technologies. Also, I helped with the company's new internet website.
